Water District Takes Strong Stand On Legislation Change Of MWD Unit Voting Method

A strong stand for legislation to change the unit voting method on the Municipal Water District Board was taken by the Chino Basin Municipal Water District directors at a special meeting last week.

The directors stated that "harm and inquities to the Chino Basin District have resulted by the use of the unit voting system of MWD."

A committee, reporting at the special session, said the unit voting system of MWD resulted in unfavorable annexation terms assessed to Chino Basin District and made possible projects in other districts which has cost the CBMWD considerable money.

Albert Reynolds, during the course of the committee study, developed material which bore out the opinion of the committee, the Board said.

Major attention was given to the annexation of West Basin as their annexation application was made "about the same time as Chino Basin District."

It was discovered that, although an error of $50,000,000 was made in assessed valuation, West Basin District received terms for more favorable than offered Chino Basin District.

This study, the Chino Basin committee said, assured the committee that the unit rule had actually been responsible for Chino Basin Districts unfavorable terms.

Attend Meeting

As a result of the committee work and proposed action of the District Board, the Directors were invited to attend a meeting of the Water Problems Committee of MWD Board on March 13.

Counsel for Chino Basin District made a presentation of the district's position and intentions, followed by a statement and forceful arguments by Reynolds.

It is the feeling of the committee, a spokesman said, that although the Water Problems Committee recognized the arguments and to a degree felt that Chino Basin District had been improperly treated, it was not inclined to do justice at that time.

The committee said this indicated, or clearly showed, the inability of a small district to obtain fair treatment.

In conclusion, the committee made the following recommendations which were adopted as the policy of the Chino Basin Municipal Water District Board.

Recommendations

1. That the Committee or representatives of the committee present to our legislative representatives the proposed bill as prepared by the counsel.

2. That the several Committees of the Legislature concerned with water matters be contacted and effort made to obtain hearings on proposed legislation and matters in connection with the policies and practices of MWD.

3. That counsel and other members of the committee be authorized at their forthcoming trip to Sacramento to present the above matters.

4. That the Committee be authorized to continue its study and to meet with MWD, if MWD so requests.

5. That the District employ an engineering consulting firm to study and review the effect on Chino Basin Municipal Water District of:-

(A) Annexation Policies.
(B) Special pipeline installations in other Districts.
(C) Subsidized water replenishment rates.

The statement to Water Problems Committee of MWD by Reynolds, in part follows:

On Nov. 26, 1951, the Chino Basin Municipal Water District was annexed and granted $360,000 to build a pipeline, instead of $1,300,000 as requested.

The $360,000 was based on a grant made to Pomona, and relative assessed value of the two districts.

The assessed value of the Chino Basin Municipal Water District was $72,199,180, with back taxes of $5,405,100.

The assessed value of the West Basin, when admitted, was $13,00,000 more but their back taxes were $1,300,000 less than Chino.

To quote from a letter to Reynolds from Robert E. Austin, Director of the MWD, from West Basin Municipal Water District, in part "The (Water Problems) Committee determined the amount of help to be given to your District, on the basis of that given to the Pomona District, it is quite important that they should adhere to some type of policy and apparently the help given to Pomona sets the pattern for the future."

On Nov. 26, 1951, the same day that the Chino District was annexed, the Orange County Municipal Water District was annexed on very liberal terms, being granted pipe lines and connections costing approximately $7,000,000. The assessed value was $248,826,073, and the back taxes were $20,064,000, their assessed value was three and one-half times that of Chino but their grants were nearly 20 times as much.

The terms granted to Orange County Municipal Water District had no relation to those granted to Pomona and Chino Basins.

In 1953, it was decided that the interest rate on deferred payments of back taxes should be increased from 3 per cent to 4 percent, but it was agreed that the increase would not apply to any area whose annexation was completed by March 1, 1954.

On Dec. 15, 1953, the time was extended to Dec. 1, 1954, for all areas whose terms of annexation had been fixed

Mt. Baldy District Short One Candidate

One vote could conceivably elect a candidate to the Board of Trustees in the Mt. Baldy School District election on April 18.

This possibility came about when Board members Edward K. Bonds and Robert P. Crouse decided not to seek re-election and only Robert W. Young filed as a candidate.

Two four-year terms are open for the April 18 balloting and with Young as the only candidate this almost assures him of election to one of the seats and leaves the other vacant.

A check of state laws governing the election revealed that a write-in vote is permissible. Requirements include that the write-in candidate be a duly constituted voter in the school district.

Thus, according to the County Superintendent of School's office, any Mt. Baldy School District resident may vote a write-in ballot and if only one such vote was cast that person would be elected to a four-year term on the School Board.

The deadline for filing as a candidate was March 17 and eliminates all possibility of a person filing formally as a candidate for the vacant seat.

One other possibility exists. Should two write-in candidates get more votes than Young, the two write in candidates would be elected.

The Mt. Baldy School Board is a three-man Board but one of the seats is not open for voting in the April 18 election.

Phone Brigade Reaches 2,000 Local Residents

The telephone brigade conducted during this month by the First Church of the Nazarene of Upland has been successful in contacting over 2,000 families in the church's effort to invite the city of Upland to attend Easter services at the church of their choice on April 1.

The goal of the brigade is to contact 5,000 homes, and a staff of 50 telephoners will be working in a concerted effort to reach the remaining 3,000 families this week.

Rev. Tom Barnard, brigade coordinator, reports that the community response continues to be favorable, with many families responding warmly to the invitation. The coverage given the campaign by the Upland News is cited as a major contributing cause for the friendly reception given the callers.

While most people answering the phones have indicated their affiliation with some church group and their intention of attending services there, a number of families have indicated their intention of attending services at the Nazarene Church, according to Rev. Barnard.

To accommodate the expected crowds, the church will conduct two identical worship services on Easter Sunday, at 8 a.m. and again at 11 a.m.

State Gives Approval To Junior High Plans

Complete plans and specifications for the new Upland Junior High on W. 18th St. have been approved by the state Division of Architecture.

Superintendent Harold Cook said the Upland School District was notified Tuesday of the acceptance by the state but pointed out that a few minor changes will be made in the specifications to conform with the state's recommendation.

State approval of the drawings and specs this week added target date of Feb. 1, 1962, ed encouragement that the could be met, Cook said.

The school district will advertise for bids on April 13 and April 20 and bids will be opened on May 4. A representative of the State Department of Finance will attend the bids opening in the library of Upland Junior High on May 4.

The bids will then be tabulated and sent to the Department of Finance for final approval, providing the low bid is within the limits of the estimated cost of the building. Should all bids be over this estimated cost it would be necessary to re-advertise for new bids.

The Finance Department will check bids to determine if state footage allowances are met and for other construction data and information.

If this phase progresses without delay, Cook said actual construction would start early in June and the target date for occupancy of the new junior high unit would remain at Feb. 1, 1962.

Pray for one another. —(James 5:16).

Prayer is a power because through prayer we reach past human thought, past human limitation and touch the invisible source of all life, all energy, all substance. Our prayers help and heal another because they awaken the Spirit of God in him.

Every person should be willing to listen to others —at least as much as he talks.

What has become of the old-fashioned lad who used to keep the family car clean?

People who lose their tempers playing a game ought not to play games.

Upland Nears Easter Seal Fund Target

Upland stands in a good position to make its 1961 Easter Seal goal, announced Mrs. Kenneth Perry who is the local Community Director for the Crippled Children's Society.

"We are at approximately 50 percent of our $1,440 goal now," said Mrs. Perry, "and with Easter just upon us, I am sure that Uplanders will mail in those outstanding Easter Seal contributions.

"We have one Upland child who has applied for the summer camp program, so part of the money coming in from Upland is already committed. Because of our wide publication of services to handicapped children and adults, we expect to receive more requests for aid."

In addition to the camp program, the Society offers swimming for the handicapped, a loan closet of wheelchairs, walkers, crutches, and other rehabilitative equip- often given towards purchase ment. Direct assistance is of braces, artificial limbs, glasses, orthopedic shoes, and the like.

"The Crippled Children's Society depends more on the small contributions to finance this program," said Mrs. Perry. "The one dollar to five dollar donations are what keep us in existence."

Temple Announces Passover Services

With its colorful ceremonies that mark the flight of the Israelites from ancient Egypt, as related in the Book of Exodus, Passover begins this year at sundown, Friday, March 31.

Sabbath Worship services, ushering in Passover with the first Seder in the home, will be held at Temple Beth Israel, 456 W. Orange Grove, Pomona, at 6 p.m., Friday, March 31.

Saturday morning service will be held at 11 a.m., and a Congregational Seder follows at the Temple at 6:30 p.m. Harold Staw is general chairman for the Seder service.

The Passover holidays end Friday, April 7, at which time a morning service will be held at 11 a.m. and the regular Sabbath worship service at 8:30 p.m.

Local Students Capped In Future Nurses Club

Twelve members of the Future Nurses Club of Upland High School were "capped" at a ceremony held at the Casa Colina Convalescent Home for Crippled Children recently before an audience of 150 friends and relatives.

In order to receive their caps the girls each had given the required five hours of volunteer service and most had given 12 to 15 hours of work at the Home.

The Club as a whole has volunteered help at Casa Colina twice a week for the past 19 months. The girls are proud to wear their uniforms consisting of blue and white striped pinafores with white blouses. Their services have included helping with the children of the Home by feeding and dressing them, wheeling them about and playing games with them.

The Future Nurses are sponsored by the Upland Chapter, American Red Cross, and the San Bernardino County Medical Auxiliary. Mrs. B. Eguene Taylor, Chairman of Volunteers of the Upland Red Cross Chapter, presented the caps with Mrs. Gibson Ellerbeck, Upland Jr. Red Cross Chairman, assisting.

Receiving caps were Sharon Burke, Kathy Gibson, Carol Kulhavy, Linda Galloway, Helen Hart, Ann Morrison, Jean Partridge, Carol Pomeroy, Bonnie Taylor, Caryl Mace, Roberta Reese and Jill Cutler.

Service bars were given to members of the club who have served one year or more. Girls receiving this honor at the ceremony included Lynette Billings, Donna Olsen, Bea Mezzie, Alice Olsen, Paula Makabe and Sally Jo Mertz.

Certificates of Appreciation were awarded by the Upland Red Cross Chapter to the following girls in recognition of special services rendered not only to Casa Colina but several local hospitals: Donna Olsen, Bonnie Taylor, Jean Partridge, Bonnie Mackenzie, Ann Morrison and Helen Hart.

Tongue Twister

Botanists have given the "meat" of oranges a tongue-twisting technical name. If it were in common use, the 1961 National Orange Show, April 20 through 30, in San Bernardino, would be called the National Hesperidium Show.

Navy Combat Artists Graphically Depict War

Operation Palette, a traveling exhibit of original paintings and on-the-scene drawings by official U.S. Navy combat artists, will be on exhibition to the public without charge in San Bernardino, at the National Orange Show Cafeteria, from 10 a.m. to 9 p.m. daily, April 5, through April 10.

Widely acclaimed in New York, London, and other large cities where they have been shown, these records are a graphic portrayal of the Navy's role in war on the seas, on the beaches, and in the air. Many paintings in the group have become familiar to the public through reproduction in Life, Time, The National Geographic, Colliers, and such books as "The Navy at War" and "Victory at Sea".

Brought to San Bernardino by the Navy Department, under the local sponsorship of the San Bernardino Council of the Navy League of the United States, this exhibition represents 120 of the outstanding works of combat artists who are nationally known painters in prviate life. This exhibit has been shown throughout the United States, and has been seen by more thn 50 million persons.

Navy Collection

Carefully selected from the million-dollar Navy art collection, these works depict highlights of the ocean wars on canvases painted at Normandy, Iwo Jima, the Phillipine Sea, at Midway and Okinawa,to name a few of many places. Famous paintings in the collection are Shepler's "Fox Green Beach", Jamieson's realistic work made from oils and volcanic ash at Iwo Jima, entitled "Souvenirs", and Draper's "Inferno-Saipan". Cabot's "Walking Wounded" and other works, Hahn's vivid paintings of carriers in action have been added from the Korean collection as have paintings by Genders of the Sixth Fleet in the Mediterranean and the Chinese Nationalist evacuation of the Tachen Islands in 1955.

"Our purpose," said League President Don Goodcell, "is to give as many people as possible an opportunity to see this unusual collection in the original. The Navy Combat artist has made a permanent contribution to our national culture, but what is more important, he has given us a realistic impression of the consequences of war. The combat artist has painted the more inimate side of military life from the viewpoint of the fighting man."

Combat artists have not indulged in experimental techniques or abstractions, nor have they viewed war from a distance. Their purpose was to paint in a simple graphic medium the story of the Navy in action. No phases of their subject matter were left to memory. They landed on the beaches with the first troops, lived in sub-zero climates, underwent strafing and bombing attacks and sweltered in jungles, doing their work at the same time. Here is an accurate record of what war means to men who do the fighting, painted on canvas by the brushes of outstanding American Artists.

There is no charge for this exhibit; parking on the Orange Show grounds will be provided free. Please enter via the Third street entrance.

Climate For Citrus

California, the top orange production state in the nation, has the perfect climate for growing citrus fruits. Sensitive to cold, the trees and fruit face extreme injury if temperatures fall below 25 degrees. Results of this ideal orange climate will be abundantly featured during the 1961 National Orange Show, April 20 through 30, in San Bernardino.

Chaffey Whips Upland Again

Upland's high school baseball team gave up three runs in the top half of the seventh inning Monday afternoon to give Chaffey High a 5-2 victory, its second over Upland this season.

The two teams were tied at 2-2 going into the final stanza. Two costly infield errors and back-to-back blows by Tom McFadden and Bill Macri accounted for the three Chaffey tallies.

In the game played at Memorial Park, Macri also contributed a home run. Tom Solter got a double for Upland, the only extra base knock for the local nine.

Rickey Graciano got credit for the win and Bob Young was charged with the loss.

Triples were hit by Jim Wilcox and Chuck McGinnis for UHS. The only extra base hit for Rubidoux was a home run by Pete Sanchez. Chuck McGinnis and Jim Lail turned in fine fielding efforts while Bob Young went all the way to get the win.

Young pitched all eight innings striking out nine and allowing only three earned runs.

Jim Lail batted in four runs to top Sanchez of Rubidoux who drove in three.

In a game against Riverside, UHS was defeated, 2-4.

John Viveros, who was injured in a practice game, will be out of action for about a month with a broken finger.

Player of the week honors went to Bob Young for his pitching in the Rubideux game. Bob pitched the entire eight innings. His relief work in the Riverside game was also excellent. Young has allowed only three earned runs in his last 13 1/3 innings on the mound.

Navy Stages Impressive Show For High School Journalists

By MEL HODELL

Cruising aboard an aircraft carrier was a mighty exciting experience for high school youths and observers.

The Navy threw in everything but an atomic blast to make the simulated attacks and events realistic and interesting.

The carrier Yorktown, one of seven Hunter-Killer groups of U.S. strength, is designated to battle the menace of some 450 Russian subs. The Navy feels the submarine threat is the hardest problem they have to face.

New Concept

The new concept includes a carrier, destroyers, helicopters, and aircraft in a team effort of modern electronic devices and weapons to destroy submarines.

Each aspect of the Hunter-Killer concept was demonstrated to those on the cruise.

The flyboys of the jets and prop planes still are the glamour boys of the service, for every effort is made to increase their effectiveness. The students watching jets buzz the ship and roar through touch -and -go landings, shooting rockets and dropping depth charges — couldn't help but be impressed.

The dependable destroyers, with new means to stalk and then send rockets into the deep ocean after subs, showed their vital part in the operation.

Little Odd

The helicopters looked a little odd hovering just over the surface, with their sonar equipment stuck into the water to hear a sub's movements.

Most moving were the depth charges from plane and destroyer alike, which even from a long distance made the mighty Yorktown shake and shudder.

For those who failed to stick cotton in their ears, the blast of the carrier's whopping 5-inch guns brought every hand up to every ear... and right now.

The youths had a good time. The food was plentiful. Sleeping quarters were in the crew's section. . .and the strange surroundings and noise, plus being stacked in row over row, didn't give everyone the best night's sleep.

But the food was good and especially welcome after a day roaming the ship. The officers and crew members were helpful. . .and answered a million questions.

Windy, Cold

On the carrier's flat flight deck at times the wind was blowing atop it at a terrific rate. In the morning it was cloudy and the wind was frigid. In the afternoon the sun broke through, to bring the beauty of the Pacific to an artist's perfection. The ship went 25 miles out to sea, and traveled some 80 miles in its maneuvers.

There was a touch of Americanism, for the Navy stoutly outlined its function of protecting American citizens and property, and looking out for our general welfare. It is comforting to know that the Freedom of the Seas still is maintained by such mighty forces as we have.

The youths had a big time . . .and were well-behaved. Nobody acted up at all. . .and no one fell overboard.

UPLAND HIGH SCHOOL was represented aboard the aircraft carrier Yorktown on March 27 when more than 400 reporters for school newspapers spent "A Day in the Navy." Advisor Tom Maxfield, Don Fendon and Mike Pugh, representing UHS in the fifth annual cruise are beside a helicopter on the flight deck of The Fighting Lady.

Water District Takes

(Continued from Page 1)

prior to March 1, 1954. All areas that had made inquires were to be notified.

No Consideration

This action was taken for the special benefit of the Central Basin Municipal Water District. The Chino Basin was not shown such consideration.

Joseph Jensen, chairman of the MWD, in his letter of Feb. 21, 1961, to the Subcommittee on water of the Los Angeles County Legislative Delegation, stated in part of pages 6 and 7, as follows.

"The City of Los Angeles at one time was entitled to 81 percent of the water of the District. But according to its recent statement the less than one-third of the Colorado River water to which it would be entitled will last until 1990. What would Los Angeles have done with the remaining 48 percent of the water which it underwrote and was entitled to if the District had not made annexations and secured other areas that assumed these obligations of the City of Los Angeles? Like the manna which fell from heaven, that water would have been wasted and would have flowed into the Gulf of California to do no good to anyone.

The expansion of the District accomplished the purpose of its founders. Failure to make annexations would have been much more harmful to Southern California". End of quotation.

This statement entirely refutes the position taken in 1946-7-8 by the majority of the Directors representing Los Angeles, which penalized the Chino Basin Municipal Water District.

On Oct. 25, 1960, the unit rule was used to defeat the approval of Proposition No. 1 to be on the November ballot authorizing the bond issue for the Feather River-Delta Diversion Project.

On Nov. 1, 1960, by the change in voting of one of the eight Los Angeles Directors and one of the Central Basin's three directors, the decision was reversed and proposition No. 1 was endorsed.

Wield Power

The Unit Rule enables Los Angeles to wield greater power in voting as witnessed by the 1948 and 1960 examples and to dominate the Board.

In the case where one or more Los Angeles Directors are absent, it permits the majority of those present to cast the vote for the absentees as well as for those that are present, but who do not agree with the majority.

Each Director should be entitled to his pro rata number of votes, and if he is not present, they cannot be voted and if he is present he should cast his votes independently of the other Directors.

May 11, 1960, at the dedication ceremonies at San Jacinto on the completion of the Colorado River Aqueduct, Jensen said in part: Quote. "The Metropolitan Water District in its dealings with its member cities and areas has always sought to deal fairly and openly. . .

We believe that we can reach and hold our goals in the solution of our all-important water problems by an united front, guided by mutual trust and good will." End of quotation. We emphatically challenge the correctness of the first part of the statement as being contrary to the facts.

On Feb. 13, 1961, William Peterson, Director from Los Angeles, stated to the Water Problems Committee in connection with an other matter, "That a Board can always take the necessary action to correct an inequality."

The Chino Basin Municipal Water District believes that the MWD established an enviable record in the construction of the Colorado River Aqueduct, but that in the administration of distribution of the water there from its record is quite different. Subsidation and politics have played too important a part.

The Chino Basin Municipal Water District fears that if the same policies are followed by the Metropolitan Water District in the distribution of the Northern water, the effect will be the serious undermining of public confidence in MWD and our future water supply problems can only be solved by Mutual Trust and Good Will.

THE LIVING CHRIST

It is strange that the Easter message, despite its familiarity, remains one of the most incompletely understood of the great foundations of our faith. To celebrate the resurrection with flowers, music and a special sermon is all very fitting.

The Easter message is primarily the message of the living Christ. But how is He living? The answer to that question faces us with a reality that is at the same time a mystery. He lives in His glorified body. He lives in a body that transcends human limitations. When He appeared during the 40 days, He had a body bearing the print of the nails and the wound of the spear; in this same body He ascended and in it He is the place of exaltation at the right hand of God.

It is our heritage to know the risen, living Lord. Jesus Christ, by His spirit, actually lives in the believer's heart! This being the case, we cannot even begin to know the fullness of the Easter truth until we learn something of what it means to have Christ living in us.

When our Lord appeared to Thomas, who had doubted the reality of His resurrection, Thomas declared, "My Lord and my God," whereupon Christ said to him: "Thomas, because thou hast seen me, thou hast believed: blessed are they that have not seen, and yet have believed." (John 20:28, 29)

That is the Easter beatitude, the beatitude of the living Christ for all who, looking in faith to the risen Christ, are saying of Him in their hearts, "whom having not seen, we love" (1 Peter 1:8).

Fendon, Pugh TakeYorktown Navy Cruise

Upland High School was represented aboard the aircraft carrier Yorktown on March 27 when more than 400 reporters for high school newspapers spent A Day in the Navy.

Donald Fendon, 1489 W. Foothill Blvd., Upland and Mike Pugh, 557 East Arrow Hwy., Upland were chosen to represent their school in the fifth annual all-day cruise off Long Beach.

It was sponsored by Public Relations Co. 11-2, Naval Reserve, with the co-operation of local school officials.

The boys will compete in a writing contest about their experiences.

The program began the afternoon of March 26 when the students arrived at the Long Beach Naval Station. They were given a tour of facilities there before dinner. In the evening they saw a movie and slept aboard the Yorktown.

Their day at sea began at 6 a.m. with reveille and breakfast and the big flattop got under way shortly after 8 a.m. with more than 100 civic, business and education leaders joining the youths. During the cruise the guests witnessed the full routine of a carrier, including refueling while under way, simulated attacks by jet planes and a submarine, firing at surface targets and the "rescue" of a man overboard.

Rear Adm. M. E. Arnold, commandant of the 11th Naval District, will offer a sword trophy to the high school scoring the most points in the writing contest. Capt. Charles Gibson, skipper of the Yorktown, extended the hospitality of his ship, one of the carriers commanded by Rear Adm. Clarence E. Ekstrom, head of all naval air forces in the Pacific.

Meet A High School Teacher

Meet David Peterson, Upland High School social science teacher, and officer in the California Teachers Association.

He is the CTA Southern Council representative from Chaffey Union High School District, CTA Southern Section sub-committee chairman of the Committee for Credential Implementation.

He also is chairman of the College Relations Program, which is CTA sponsored, and meets regularly with officials of Upland College. He is on the governing board and the executive board of the Chaffey Union High School District Teachers Association; and is past chairman of the sub-committee on credential revision.

Peterson's pride is the College Relations program. He says that the purpose of the program is to establish continuing groups in which teachers in the public and private schools and teachers in the colleges that train teachers may meet to discuss matters of mutual professional concern.

For instance, now under discussion are the training of retired personnel, such as military officers, for the profession of teaching, and accreditation on a statewide and nationwide basis.

Although he has a busy life with the CTA, Peterson is one of Upland High School's most able teachers. He teaches civics, basic citizenship, and is advisor of the Hilan yearbook staff. Since he has assumed the responsibility for the yearbook, it has been a sell-out each year.

Education

He attended Calvin College, Mich., and received his A.B. and M.A. at the University of Michigan. He has studied further at Los Angeles State College and Chaffey College.

This is his fifth year at Upland High School. He taught previously at University High School, Ann Arbor, Mich.; and was principal of Ontario Christian Elementary School for two years.

His major field is history; and his minor fields are political science, physical education, botany, speech, and English. His post-graduate field is secondary school administration.

Not only is Peterson a teacher and professional relations official, he is active in community affairs. He is a member of Ontario Christian Reformed Church and is chairman of the library committee. He is secretary-treasurer of the Ontario-Chino Christian Men's bowling league. His keen interest in athletics leads him to put in much time at football and basketball games, and track events, where he is timer and scorer. He is official timer for the high school football games.

His hobbies are cooking — and he turns out a gourmet special with ocean sportfish —and photography.

He, his wife, Marian, and three children, Jim, six; Ricky, four; and little Kathleen Joy, three months; live at 633 Tulare Way, Upland.

Valle Vista Cub Pack 3 Gets Charter

Valle Vista Cub Pack 3 held their monthly Pack meeting recently and the annual Pack Charter presentation was made by Don Winchell, neighborhood Scout Commissioner. Mrs. Conrad Facknitz, PTA president, accepted the charter for the sponsoring institution.

The new Pack Committee consisting of Howard Siemens, Lewis Cosner, Sam Grasso with Jerry King as Institutional Representative and Ed Carlton as chairman were presented membership cards. Jack Hermes was inducted as Cubmaster.

The Den Mothers, Mrs. Gloria Romo, Mrs. Virginia Carlton, and Mrs. Deanie Hermes were also presented membership cards.

The Dens were then given membership cards and Boys' Life insignia for 100 percent participation in the Boys' Life magazine program.

Skits on Railroading were put on by Dens 3, 6 and 8. After which a brief description of the train ride from Pomona to San Bernardino on the Sante Fe Chief Streamliner Domeliner on March 11, was given.

Clifton Cosner, Den 3 received his Wolf Badge, Jackie Hermes, Den 3, his Bear gold arrow. Denner stripes were given Tim Arner, Den 6, and Steven Hansen, Den 3. Assistant Denner stripes to Bill King, Den 6, and Tim Siemens, Den 3. The awards were made by Howard Siemens.

Den 6 furnished refreshments.

Citrus Belt Speech Event

Four Upland High School students were winners in the Western Division preliminaries of the Citrus Belt Speech League last week at Chaffey High School.

Bonnie MacKenzie placed in dramatic interpretation. Gary Myrhe and Joseph Stone placed in Boys' impromptu, and Jennifer King placed in girls' oratory.

These four winners will participate in the Eastern and Western preliminaries, March 25, at Redlands University.

Eileen Mefferd, Peter Hein, Norma Schmidgall, Sam Stanson, Frances Pitts, and Glenn Wedin also entered the contest.

Miss Patricia Stites is UHS speech squad sponsor.

Only In California

California, oddly enough, is the only state to grow Washington Navel oranges. This fruit is normally seedless. Choice Washington Navel oranges will be featured in citrus exhibits at the 1961 National Orange Show.

Seedless Oranges

A seedless orange, botanists say, is one containing five or less seeds. This type of seedless fruit will be among the many varieties of choice California citrus on display at the 1961 National Orange Show, April 20 through 30, in San Bernardino.

BABY GIRL BORN

Mr. and Mrs. Emetrio of No. 1, Turner Ave., Guasti, are the parents of a daughter, born Mar. 20, at Ontario Community Hospital, Ontario.

"Have you any children, Mr. Smith?"

"Yes — three."

"Do they live at home with you?"

"Not one of them — they are not married yet."
